

The RDK-501 Detachable Keyboard

Latching Fully Rugged Keyboards for the RuggON Rextorm Series Tablets

RuggON has partnered with iKey to design customized rugged keyboards for our customers. The new RDK-501 detachable keyboard is the perfect accessory for RuggON PX-501 and PX501 rugged tablets.

With slim and lightweight design, the RDK-501 detachable keyboard is easy to carry and available with different languages (upon request). It is also engineered to withstand dirt, dust, and spills in harsh work environments.

Features of the RDK-501 can also include:

- An integrated Touchpad
- Molded aluminum case
- 120° friction hinge
- A slim and lightweight profile for easy mobility
- Touchpad supports multi-finger gestures; including zoom, rotate, scroll, pan, back/forward, launch browser, and minimize.
- Foreign Languages available upon request
- Integrated green backlighting with 4 levels of brightness
- Designed to meet IP54 specifications
- Operation between - 10 and +50 degrees Celsius
- Storage Temperature: -40°C to +85°C
